

Stacie Cunningham has been in the insurance industry for 30 years. Even though being an insurance agent was not her first career choice (being involved in the entertainment industry was always the dream), she loves connecting with people and assisting them with finding the right plan for their needs. Fear has always been a daily occurrence in her life. By squelching the fear of the unknown for her clients or feeling that fear personally by raising two teenage daughters, it has given Stacie the ability to become comfortable with the uncomfortable.

Being a part of this tumultuous world for 50 years and living through the ordeal described in this chapter, Stacie developed a concept called *Fearless Pajamas*. These experiences prepared her to help other women tap into their courage and move through their own fears with confidence, spunk, and tenacity. By developing a high energy speaking presentation, she is able to provide simple tools that anyone can incorporate into their daily routine.
